

# International Conference on Variational Analysis and Nonsmooth Optimization

Colloquium Dedicated to Christiane Tammer

July 15 & 16, 2021

## Aim & Scope

The “International Conference on Variational Analysis and Nonsmooth Optimization 2021” (ICVANO 2021) is dedicated to Christiane Tammer, and will be held as online-colloquium between July 15-16, 2021. This conference will be held on the occasion of Christiane Tammer’s 65th birthday and aims to honor her achievements on the fields of variational methods and optimization. We will celebrate this event as a colloquium where Christiane Tammer’s collaborators will give scientific presentations and laudations. In addition, her current and former PhD-students will be given the opportunity to give presentations.

## General Information

Information about this event will be posted here: <https://wiki.math.ntnu.no/icvano2021/start>. The conference will take place online via zoom, and the link will be sent to all the participants.
