

FFI Norwegian Defence
Research Establishment

Forsvarets forskningsinstitutt

We do applied research

Crypto at FFI

- Government crypto is sometimes peculiar.
 - How should it look in the future?
- Can MPC or FHE help the government?
 - Tentative answer: Maybe.
- Satellites, drones, underwater vehicles need crypto
 - ... but the environment is working against us
- Nato plans to protect every piece of information seperately
 - But how?
- Fully funded by our projects
- We can't do it alone: Cooperation in all directions
- Involved in SFI, research school applications
- We participate in EU projects
- Summer and master students do valuable work for us
