

TMA 4301 Partial Differential Equations  
Reference Group Meeting 17.IX.2021.

Present were Helge Holden, Peter Lindqvist, Jasper Steinberg, and Paulius Cebataraukas. Jasper Brookman was absent, but provided written comments that were taken into account.

We discussed

- Panopto
- The Textbook
- The exercise sessions
- The lectures

and everything seemed to work well. It was observed that the date for the final exam (December 2<sup>nd</sup>) is early and a later date were more convenient.

Finally, we decided to have a second meeting later.
